INTRODUCTORY SECTION

Upper Uwchlan Township

June 18, 2018

Citizens of Upper Uwchlan Township,
Members, and Board of Supervisors

On behalf of the Finance Department and all Township staff, we are pleased to present the comprehensive annual financial report ("CAFR") for the year ended December 31, 2017. The purpose of the CAFR is to convey a detailed and transparent representation of the financial position of the governmental, proprietary, and fiduciary funds of the Township. Township management is responsible for the preparation and fair representation of the financial statements in accordance with generally accepted accounting procedures and takes full responsibility for the preparation and presentation of said information. As part of this preparation, the Township has designed and implemented a comprehensive system of internal controls over financial reporting that assist in providing reasonable assurance that the financial statements are fairly presented. In developing this system of internal controls, consideration was given to ensure that the controls provided reasonable, but not absolute assurance that Township assets are safely guarded from loss or unauthorized use, that the accounting records used to prepare the financial statements are reliable, and that accountability for the records is maintained. The concept of reasonable assurance recognizes that the costs and benefits of implementing these controls require estimates and judgments by management.

The financial statements have been audited by Barbacane, Thornton & Company LLP, Wilmington, DE. The CAFR contains an independent auditor's report, management's discussion and analysis, a series of basic financial statements, supplementary information, and statistics. The CAFR, in its entirety, as a supplemental document to the annual Township budget clearly communicates the priorities, goals, and objectives of the Township as they relate to services provided to our community. We would encourage readers of this report to take the time to review all available sections in order to obtain a clear understanding of Township operations and both the short-term and long-term financial position of the Township.

Upper Uwchlan Township

Township Profile

Upper Uwchlan, originally incorporated as a municipality in 1858, is a Township of the second class located in central Chester County, approximately 30 miles west of Philadelphia, PA and 25 miles north of the City of Wilmington, DE. Upper Uwchlan Township is one of 73 municipalities that make up Chester County, Pennsylvania, one of the three original Pennsylvania Counties created by William Penn in 1682 (Philadelphia and Bucks being the other two). Upper Uwchlan Township is approximately 12.12 square miles in size with a population of 11,227 as reported in the 2010 census. In 2017, there were 3,704 residential parcels in the Township with a median value of \$420,700 and a total assessed valuation of \$951,422,378. This compares to a median value in Chester County of \$325,800 and \$166,000 in the Commonwealth of Pennsylvania. The median family income in Upper Uwchlan Township in 2015 (the most recent year for which demographic information is available) was \$163,140 compared to \$103,339 and \$66,959 for Chester County and the Commonwealth of Pennsylvania, respectively. Township residents are well educated. The majority (63.8 percent) of Township residents are employed in professional occupations, and 20.7 percent are employed in sales and other office positions.

The ten largest employers in Upper Uwchlan Township provide approximately 1,700 jobs. Most businesses within the Township are small retail or professional offices.

Marsh Creek State Park is located in Upper Uwchlan and Wallace Townships. It is the location of the 535-acre man-made Marsh Creek Lake, which was created when Marsh Creek was dammed in the early 1970s. It has an average depth of 40 feet (73 feet at its deepest); it is stocked with fish and is a stop for migrating waterfowl. Fishing and non-powered or electric powered boats are permitted. A portion of the park is open to hunting. There are about 12 miles of trails available for equestrian use, hiking, and mountain biking around the lake.

The Township owns over 90 acres of passive and active recreational land in four parks – Upland Farms (56 acres), Hickory Park (32 acres), Fellowship Fields (17 acres), and Larkins Field (7.2 acres).

Upper Uwchlan Township has its own full-time police department, which in July 2016 received Pennsylvania Chiefs of Police Association Accreditation. Accreditation communicates a commitment to best management practices in law enforcement, community relations, and communications and reduces exposure to lawsuits and liability. The awarding of accreditation status was the culmination of four years of hard work and commitment by the leadership team within our police department and all of our police officers; we are very proud of their accomplishments. The Township is served by four volunteer fire companies from surrounding Townships and three EMS organizations, all staffed by committed, well-trained personnel.

2017 In Review

Commensurate with the ever-improving economy, the Township has seen a significant increase in conditional use and land development applications for both residential and commercial development. This significant increase in activity and the resultant increase in commercial businesses and residential population makes prudent planning for the efficient and effective delivery of quality municipal services a critically important objective. The Township has, and will continue to, concentrate on the delivery of core services such as police, public works, building/codes, solid waste and recycling services, fire/emergency medical services, storm water management, traffic management, parks and recreation, and planning and zoning. The Township continues to be prudent in the development of its annual budgets.

Upper Uwchlan Township

Legal budgetary control is maintained at the department level under direction of the Township Manager. The 2017 budget year saw a great deal of activity in and around the Township. This activity included the continued planning efforts of the Pennsylvania Turnpike specific to future bridge replacements and roadway expansion; planning efforts for construction of Phase III of the Route 100 Wastewater Treatment Plant (a 300,000 gallon per day sequencing batch reactor); the completion of construction of the Little Conestoga Road Wastewater Pump Station and force main; the construction of the Phase II Sewer Expansion Project in Eagle Manor, Windsor Place, and Heather Hills; continued development of Upland Farms Park, and planning efforts for the construction of the Sunoco Mariner II/III Pipeline Project. Activities such as the Sunoco Mariner II/III pipeline project are expected to take approximately 18 - 24 months to complete, will require a great deal of management, and will utilize a great deal of Township resources.

Continued development of the Upland Farms Park, a 56-acre passive recreational park, has included construction of an area dedicated to the retirement of the U.S. flag, the installation of a 50-foot flag pole, and improvements to existing outbuildings located at the park. Plans for Phase I of the Village Transportation Trail Project were finalized and the \$500,000+ project was designed, engineered, permitted, and constructed. This trail connects the Upland Farms Park and the existing trail network to the Village of Eagle and included the addition or repair of one (1) + mile of asphalt trail. The Township will continue to apply for available transportation funding to be used to construct additional transportation-related projects. The Township also completed design and engineering of an as-of-yet named pocket park to be located on Township property in the Village of Eagle at the intersection of Pottstown Pike and Station Boulevard.

Our elected officials continue to emphasize cautious and prudent planning and responsible spending based on identified needs of the community. Not including the self-liquidating debt incurred for the much-needed sewer expansion project noted below, all remaining debt was incurred for the purchase of the much-needed public works facility (2011), the sports lighting at Fellowship Fields (2011), and the construction of Graphite Mine Road. In 2015, the Township issued \$6 million in general obligation debt for the purposes of funding a proportionate share of the construction of a 300,000 gallon per day wastewater treatment plant (Phase II of the Route 100 plant) and the construction of the Little Conestoga Road Pump Station and force main. This \$6 million in debt is self-liquidating with debt service being funded by user fees paid to the Upper Uwchlan Township Municipal Authority. The Board of Supervisors has tasked Township staff with paying down this debt as expediently as possible, while maintaining a healthy and prudent fund balance and budgeting for capital construction projects.

Awards

For the fourth consecutive year, Upper Uwchlan Township has been awarded the Government Finance Officers Association ("GFOA") Distinguished Budget Presentation Award (2017). The award reflects a significant organizational achievement and reflects the commitment and dedication of the Board of Supervisors and staff to meeting the highest principles and well-recognized governmental best practices in the area of governmental budgeting. In order to receive the budget award, the Township had to satisfy nationally recognized guidelines for effective budget presentation. These guidelines are designed to assess how well an entity's budget serves as a policy document, a financial plan, an operations guide, and a communications device. Thank you to all of the Department Heads involved in the budget process for their ongoing efforts. Upper Uwchlan Township was also awarded a GFOA Certificate of Achievement for Excellence in Financial Reporting for our CAFR issued for the year ended December 31, 2016, our second consecutive year receiving this award.

Upper Uwchlan Township

Acknowledgements

With the continued guidance and direction of our elected officials, and with the dedication of all of our volunteers and staff, the Township has, is, and continues to deliver municipal services, with the utmost professionalism, in a prudent and responsible manner, assuring long-term financial stability. The Township's success is a direct result of dedicated elected officials, volunteers, and staff. We thank everyone involved in the organization for the hard work and dedication, it is greatly appreciated!

Board of Supervisors
Upper Uwchlan Township
Chester Springs, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Upper Uwchlan Township, Chester Springs, Pennsylvania ("the Township"), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Supervisors
Upper Uwchlan Township

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Upper Uwchlan Township, Chester Springs, Pennsylvania, as of December 31, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof, and the respective budgetary comparison for the general fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited the Township's 2016 financial statements, and we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information in our report dated June 22, 2017. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2016 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 11 through 20; the pension funds schedules of changes in the Township's net pension liability, related ratios, and investment returns on pages 67 through 68; and the pension funds schedules of employer contributions and notes to the required supplementary information on pages 69 through 70 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The introductory section, combining nonmajor and fiduciary fund financial statements, statement of changes in assets and liabilities - escrow fund, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Board of Supervisors
Upper Uwchlan Township

The combining nonmajor and fiduciary fund financial statements and statement of changes in assets and liabilities - escrow fund are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor and fiduciary fund financial statements and statement of changes in assets and liabilities - escrow fund are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 18, 2018, on our consideration of the Township's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED

This discussion and analysis of Upper Uwchlan Township ("the Township"), Chester Springs, Pennsylvania, provides an overview of the Township's financial performance for the year ended December 31, 2017. Please read it in conjunction with the Township's financial statements, which begin on page 21.

FINANCIAL HIGHLIGHTS

- **Assets** – The assets and deferred outflows of resources of the Township exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$35,645,751 (representing its net position).
- **Cash and Investments** – Total Township assets (excluding assets held in fiduciary funds) included \$7,637,450 in cash and cash equivalents and investments.
- **Governmental Fund Balances** – As of December 31, 2017, the Township's governmental funds combined ending fund balances of \$6,683,332, which was \$406,369 more than the prior year. Of this total, \$3,915,779 is in the General Fund and is unassigned (available for spending at the Township's discretion).

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and Statement of Activities on pages 21 and 22 provide information about the activities of the Township as a whole and present a longer-term view of the Township's finances. Fund financial statements start on page 23 and include governmental, proprietary, and fiduciary funds. For governmental activities, these statements explain how services were financed in the short term as well as what remains for future spending. The governmental and proprietary fund financial statements also report the Township's operations in more detail than the entity-wide statements by providing information about the Township's most significant funds. The remaining statements provide financial information about activities for which the Township acts solely as a trustee or agent for the benefit of those outside of the government.

Reporting the Township as a Whole

Statement of Net Position and Statement of Activities

The analysis of the Township as a whole begins on pages 21 and 22 with the Statement of Net Position and the Statement of Activities.

These statements provide information that will help the reader to determine if the Township is financially better off or worse off as a result of the year's activities. These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by private sector companies. All current year revenues and expenses are taken into account regardless of when cash is received or paid. The reader can think of the

UPPER UWCHLAN TOWNSHIP

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED (CONT'D)

Township's net position as one way to measure the Township's financial health or financial position. Over time, increases or decreases in the Township's net position are one indicator of whether its financial health is improving or deteriorating. The reader will need to consider other nonfinancial factors, however, such as changes in the Township's property base and employment and the condition of the Township's assets, to assess the overall health of the Township.

In the Statement of Net Position and the Statement of Activities, the Township is divided into two kinds of activities:

- **Governmental Activities** – Most of the Township's basic services are reported here, including the police, fire, general administration, public works, parks, and recreation. Earned income taxes, local services taxes, property taxes, intergovernmental revenues, and permit fees finance most of these activities.
- **Business-type Activities** – The Township charges a fee to customers to cover the cost of certain services it provides. The Township's sewer activities are reported here.

Reporting the Township's Most Significant Funds

Fund Financial Statements

Our analysis of the Township's major funds provides detailed information about the most significant funds – not the Township as a whole. Some funds are required to be established by State law and by bond covenants. However, the Township establishes other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for money designated for special use (e.g., Capital Projects Fund). The Township's three kinds of funds – ***governmental, proprietary, and fiduciary*** – use different accounting approaches.

Governmental Funds – Most of the Township's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using the modified accrual accounting method, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the Township's general governmental operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in reconciliations which follow the fund financial statements.

Proprietary Funds – When the Township charges customers for the sewer services it provides, these services are reported in the proprietary fund. The proprietary fund is reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the Township's enterprise fund (a component of the proprietary fund) is the same as the business-type

UPPER UWCHLAN TOWNSHIP

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED (CONT'D)

activities reported in the entity-wide statements but provides more detail and additional information, such as cash flows for the proprietary fund. The proprietary funds also include the activity of the Upper Uwchlan Municipal Authority, a blended component unit.

The Township as Trustee

Reporting the Township's Fiduciary Responsibilities

The Township is the trustee, or fiduciary, responsible for other assets that – because of a trust arrangement – can be used only for the trust beneficiaries. All of the Township's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position. These activities are excluded from the Township's other financial statements because the Township cannot use these assets to finance its operations. The Township is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE TOWNSHIP AS A WHOLE

Entity-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Township, assets and deferred outflows of resources totaling \$43,010,299 exceeded liabilities and deferred inflows of resources by \$35,645,751 at the close of 2017, as reflected in the Statement of Net Position.

Our analysis focuses on the net position (Table 1) and changes in net position (Table 2) of the Township's governmental and business-type activities.

Township capital assets include infrastructure assets, incorporating approximately 59 miles of road, 41 miles of sewer pipeline, and traffic signals at 11 highway intersections. Total liabilities include \$5,984,257 in outstanding debt. Although the Township's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The Township's unrestricted net position of \$4,045,147 may be used to meet the Township's ongoing obligations to citizens and creditors. This compares with last year's total unrestricted net position of \$4,448,548. Unrestricted net position decreased \$403,401 from the prior year primarily due to planned capital expenditures and additions during the year, which increased the Township's net position invested in capital assets.

At the end of the current fiscal year, the Township is able to report positive balances in net position, both for the government as a whole and for its business-type activities.

Governmental Activities

As reported in Table 2, the increase in net position from the Township's governmental activities was \$1,640,869 for the year ended December 31, 2017.

The cost of all governmental activities in 2017 was \$6,996,659, including \$626,416 in depreciation. This cost was funded primarily by tax revenue of \$5,163,307, including the earned income tax, real estate taxes, and real estate transfer taxes. Charges for services, including permits, accounted for an additional \$2,012,551 in revenue, and intergovernmental revenue accounted for another \$1,110,201.

As indicated by governmental activities expenses, public safety programs account for \$2,898,572, or approximately forty-one percent (41%) of the total expenses of the Township's governmental activities. Public safety includes the police department, the Township's emergency management services, and contributions to the local fire departments which provide services to the Township. General

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED (CONT'D)

administration and highways and streets services account for approximately nineteen percent (19%) and sixteen percent (16%), respectively, of the total governmental activities expenses for 2017.

Real estate taxes, earned income taxes, and other general revenues not designated for specific programs provide the major revenue sources for governmental activities. The earned income tax is the largest revenue source for governmental activities and accounted for \$3,625,061, or forty-two percent (42%) of all governmental activity revenue in 2017. Real estate taxes and real estate transfer taxes provided twelve percent (12%) and five percent (5%), respectively, of total governmental activity revenue.

Revenues for governmental activities in 2017 were \$490,285 higher than in 2016. This net increase was due primarily to the following:

- Increase in Capital Grants and Contributions of \$345,653 in 2017 vs. 2016.
- Increase in earned income tax revenue of \$270,770 in 2017 vs. 2016.
- Decrease in Operating Grants and Contributions of \$274,996 in 2017 vs. 2016.

Business-type (Proprietary Funds) Activities

The Township's sewer system includes 15 sewer pumping stations and approximately 41 miles of pipeline. The Township accepts flows from a residential development that is partially in West Vincent Township and collects sewer rental fees from these properties. As reflected in Table 2, sewer operating expenses totaled \$2,300,073 for 2017. Operating expenses included \$559,640 in depreciation expense in 2017.

For accounting purposes, the Township classifies its business activities in two funds – the Sewer Fund, which reports the sewer infrastructure and equipment and the related debt on the infrastructure that is used to provide sewer services to the residents of the Township, and the Sewer Authority Fund, which reflects the activities and resulting assets of the Municipal Authority from its operation of the Township's sewer system.

The Upper Uwchlan Township Municipal Authority Board establishes and collects sewer rental fees from users of the Township's system. The Municipal Authority charges a flat fee of \$175 per quarter to residential properties; commercial properties are billed in arrears based on actual usage. (Effective April 1, 2018 the quarterly flat fee was increased to \$190.00 per quarter.)

Major sources of sewer revenue in 2017 included:

- Sewer (usage) fees totaling \$2,038,149
- Sewer tapping fees totaling \$139,414

UPPER UWCHLAN TOWNSHIP

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED (CONT'D)

Major expenses included:

- Engineering services totaling \$166,097
- Depreciation expense totaling \$559,640
- Utilities expense (electric and water) totaling \$223,816
- Repairs and maintenance totaling \$134,712

As also reflected in the Statement of Net Position, total assets for the business-type activities as of December 31, 2017 were \$27,000,936. This included \$1,186,633 in cash, investment, and other current accounts, and \$25,814,303 of equipment and infrastructure assets.

The Township issued \$5,955,000 of General Obligation bonds in September 2014. The proceeds from the 2014 bond issue were used to help finance the Route 100 Wastewater Treatment Plant and the upgrade and expansion of sewer distribution lines.

FINANCIAL ANALYSIS OF THE TOWNSHIP'S FUNDS

As noted earlier, the Township uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the Township's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As shown on pages 23 and 25, as of December 31, 2017, the Township's governmental funds reported combined ending fund balances of \$6,683,332, an increase of \$406,369 from the prior year.

Approximately fifty-nine percent (59%), or \$3,915,799, is an unassigned fund balance in the General Fund, which means that it is available for spending at the Township's discretion. The remainder of the fund balance is either nonspendable or restricted, which means that it is not available for new spending because it has been restricted for capital improvements, park development, or other special purposes.

Major funds maintained by the Township include the following:

The **General Fund** is the chief operating fund of the Township. As of December 31, 2017, the total fund balance of the General Fund was \$3,930,260, a \$435,001 increase from 2016. As stated above, almost all (99 percent) of the General Fund's fund balance is "unassigned."

UPPER UWCHLAN TOWNSHIP

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED (CONT'D)

The **Capital Projects Fund** provides funding for capital improvements or other unique expenditures which are not normal operating or maintenance-type expenditures reportable within the General Fund or other governmental funds. The total fund balance as of December 31, 2017 was \$1,242,935, a decrease of \$44,467 from 2016.

Historically, the major revenue and other financing sources for the Capital Projects Fund usually are transfers from the General Fund, interest earnings, and contributions from developers for specific infrastructure improvements. The General Fund also may transfer monies to the Capital Projects Fund to reserve for capital expenditures associated with the general operation of the Township.

The **Solid Waste Fund** provides funding for solid waste collection services provided to residents. The total fund balance as of December 31, 2017 was \$585,376, a decrease of \$129,385 from 2016.

Proprietary Funds – The Township's proprietary funds provide the same type of information found in the entity-wide financial statements, but in more detail.

The unrestricted net position of the proprietary funds at the end of the year, as reported on page 29, amounted to \$853,366.

GENERAL FUND BUDGETARY HIGHLIGHTS

The statement comparing the Township's General Fund budget and actual results can be found on pages 27 and 28 of the financial statements.

During 2017, there were no significant revisions to the original approved General Fund budget.

The conservative 2017 budget for the General Fund anticipated that revenues would exceed expenditures by \$696,118; however, the Township ended the year with actual revenues exceeding expenditures by \$1,385,001, or \$688,883 more than budget.

This positive budget variance was due primarily to:

- Revenue from real estate transfer taxes was \$92,101 better than budget,
- Charges for services were \$350,096 better than budget, and
- Expenditures across all major departments were \$178,942 better than budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of December 31, 2017, the Township's investment in depreciable capital assets for its governmental and business-type activities, as shown on page 21, amounted to \$34,346,750, net of accumulated depreciation. This investment in capital assets includes land, construction-in-progress, buildings and

UPPER UWCHLAN TOWNSHIP

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED (CONT'D)

improvements, machinery and equipment, infrastructure, vehicles, and land improvements. The total increase in the Township's investment in capital assets for the current fiscal year was \$2,406,967, net of accumulated depreciation.

The above increase is due to several factors. The Township undertook a major project to add side paths in the Village of Eagle which would connect with Township trails. The Township also purchased additional treatment capacity from one of the developers which can be used for future residential and commercial expansion. Finally, the Township has committed to maintaining roadways by resurfacing different sections of the Township's roads on an annual basis.

Additional information about the Township's capital assets can be found in Note 5 to the financial statements.

Long-term Debt

At December 31, 2017, the Township had \$219,684 in General Obligation notes outstanding to a local bank and \$207,185 in capital lease principal payments outstanding.

The Township borrowed \$5,955,000 by issuing General Obligation Bonds during 2014. The proceeds from the bond issue are being used to help finance a newly constructed sewer pumping station (the Route 100 Wastewater Treatment Plant) and the upgrade and expansion of sewer distribution lines. The carrying amount of the debt, including premiums, is \$5,557,388.

Additional information about the Township's current long-term debt can be found in Note 6 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

- Because of favorable demographics – the level of education, median household income, and advantageous location (proximity to employment centers such as Philadelphia, King of Prussia, and Wilmington), the Township continues to rely on the earned income tax ("EIT") for a large portion (42 percent in 2017) of its revenue in the General Fund. It also should be noted that the EIT rate of 0.5 percent is relatively low compared to neighboring municipalities which also have an EIT.
- The Township real estate tax rate of 1.034 mills is also relatively low compared to neighboring municipalities. The rate has not been increased since 2005.
- Township real estate transfer tax revenues rebounded to new higher levels in 2017; it is anticipated that this revenue can continue to be counted on.
- The Township maintains approximately \$7,376,000 in (insured or collateralized) cash accounts. Interest rates on these accounts have dropped significantly since 2008 and are forecasted to remain very low throughout 2018.

UPPER UWCHLAN TOWNSHIP

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED (CONT'D)

- The Township adopted a 2018 General Fund budget in which revenues are expected to exceed expenses by \$1,082,622. The Township ended 2017 in a strong position, with a General Fund balance of over \$3.9 million. The 2018 budget includes a transfer of \$600,000 and \$375,000 from the General Fund and Solid Waste Funds to the Capital Projects Fund, respectively. The budget also includes a transfer from the General Fund to the Water Resource Protection Fund in the amount of \$250,000.
- Salary/wage and FICA costs are budgeted to increase by approximately four percent (4%) in 2018. This is due primarily due to the addition of one full-time police officer effective July 1, 2018. The officer is currently working for the Township as a part-time officer. Non-uniformed personnel are budgeted for three percent (3%) salary increases in 2018.

RECONCILIATION OF BALANCE SHEET - GOVERNMENTAL FUNDS
TO STATEMENT OF NET POSITION
DECEMBER 31, 2017**

TOTAL GOVERNMENTAL FUND BALANCES	\$ 6,683,332
----------------------------------	--------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. Capital assets net of accumulated depreciation as detailed in the footnotes are included in the statement of net position.	8,532,447
--	-----------

Some of the Township's revenues used in the governmental activities will be collected after year end but are not available soon enough to pay for the current period's expenditures and, therefore, are unavailable in the funds.

Property taxes	2,054
----------------	-------

Deferred inflows and outflows of resources related to the Township's net pension liability are based on the differences between actuarially determined actual and expected investment returns, differences between expected and actual experience, and changes in assumptions. These amounts will be amortized over the estimated remaining average service life of the employees.

Deferred outflows of resources - pensions	254,485
Deferred inflows of resources - pensions	(310,600)

Long-term liabilities applicable to the governmental activities are not due and payable in the current period and, therefore, are not reported in the funds. Those liabilities consist of:

Notes payable	(219,684)
Capital lease	(207,185)
Net pension liability	(477,233)

NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ 14,257,616

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND
BALANCES - GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2017

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ 406,369
--	------------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$1,890,436) exceeded depreciation (\$626,416) in the current period.	1,264,020
---	-----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. The following are the net changes in these noncurrent resources.

Property taxes	-
----------------	---

The issuance of long-term debt (e.g. capital leases, notes) provides current resources to governmental funds, while repayment of the principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position.	39,315
--	--------

When capital assets are sold, the proceeds from the sale are reported as other financing sources at the fund level. At the government-wide level, the remaining asset value must be recognized as an expense at the time of sale. This is the residual value of assets sold as of the date of sale.	(26,445)
---	----------

In the statement of activities, pension expense reflects the change in the net pension liability, net of deferrals. In the governmental funds, however, pension expenditures reflect payments made to fund the pension plan. This is the amount by which the change in the net pension liability and related deferrals exceeded pension contributions during the year.	<div style="border-top: 1px solid black; display: inline-block;">(42,390)</div>

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Upper Uwchlan Township ("the Township") complies with generally accepted accounting principles ("GAAP"). GAAP includes all relevant Governmental Accounting Standards Board ("GASB") pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

Reporting Entity

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic - but not the only - criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, and the ability to significantly influence operations and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Based upon the application of these criteria, the Township is considered to be an independent reporting entity.

Blended Component Unit

The Upper Uwchlan Township Municipal Authority ("the Authority") is a public authority, which exists to provide sewer operations using the assets of the Township Sewer Fund. The Township Sewer Fund records both the capital infrastructure used to provide services to the public, and the long-term debt related to the acquisition and construction of this infrastructure. The Authority is considered a blended component unit as it operates to benefit the Township by operating Township assets and is shown in the financial statements as part of the primary government proprietary funds. The Authority is audited by Barbacane, Thornton & Company LLP, whose report dated June 18, 2018, is publicly available through the offices of the Township.

Basis of Presentation

Entity-wide Financial Statements

The statement of net position and the statement of activities display information about the Township as a whole. These statements distinguish between activities that are governmental and those that are considered business-type. These statements exclude fiduciary activities such as pension and agency funds.

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

The entity-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting as further defined under proprietary funds below. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the entity-wide statements and the statements of governmental funds.

The entity-wide statement of activities presents a comparison between expenses and program revenues for each different identifiable activity of the business-type activities of the Township and for each governmental program. Expenses are those that are specifically associated with a service or program and are, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each function is self-financing or draws from the general revenues of the Township.

Internal activity is limited to interfund transfers which are eliminated to avoid "doubling up" revenues and expenses. Net position is reported as restricted when constraints placed on net position use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other purposes results from special revenue and capital projects funds, and the restrictions on their net position use.

Fund Financial Statements

Fund financial statements report detailed information about the Township. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. The three major governmental funds are each presented in a single column on the governmental fund financial statements.

The Township reports the following major governmental funds:

- The **General Fund** is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The **Capital Projects Fund** accounts for the resources accumulated for future capital projects.

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

- The **Solid Waste Fund** accounts for the resources accumulated for contracted solid waste collection services.

Nonmajor funds account for the proceeds of specific revenue sources that are restricted or assigned to expenditures for specified purposes. The special revenue funds of the Township are:

- The **Liquid Fuels Fund** accounts for state revenues used primarily for building, improving, and maintaining the Township's streets and bridges.
- The **Act 209 Fund** accounts for revenues received from transportation impact fees and similar revenues. Expenditures consist of improvements to the Township's roadways either by major capital installations or minor repairs.
- The **Water Resource Protection Fund** accounts for grants and other revenues received for stormwater management projects. Expenditures consist of betterments which improve stormwater management within the Township.

The Township reports the following major proprietary funds:

- The **Sewer Fund** accumulates resources necessary for the operations of the Upper Uwchlan Sewer Authority ("the Sewer Authority").
- The **Sewer Authority** accounts for the activities of the Upper Uwchlan Township Municipal Authority, a blended component unit of the Township. The Authority operates the sewage treatment plant, sewage pumping stations, and collection systems.

Governmental Funds

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Revenue Recognition

In applying the "susceptible to accrual concept" under the modified accrual basis, revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers property and earned income tax revenue to be available if collected within 60 days of the end of the fiscal period. Revenues for state and federally funded projects are recognized at the time all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

when use is first permitted; matching requirements, in which the Township must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Township on a reimbursement basis.

Property tax receivables collected after 60 days from year end, though measurable, are not available soon enough in the subsequent year to finance current period obligations. Therefore, property tax receivables are recorded as deferred inflows of resources until they become available.

Other revenues, including certain other charges for services and miscellaneous revenues, are recorded as revenue when received in cash because they generally are not measurable until actually received.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt which has not matured are recognized when paid. Further, as provided in GASB Interpretation No. 6, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements," certain governmental fund liabilities and expenditures, such as for compensated absences, are recognized to the extent the liabilities mature (come due for payment) each period. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

Proprietary Funds

Proprietary funds are accounted for using the accrual basis of accounting. These funds account for operations that are financed primarily by user charges. The economic resources measurement focus concerns determining costs as a means of maintaining the capital investment and management control. Revenues are recognized when they are earned, and expenses are recognized when they are incurred. Allocations of certain costs, such as depreciation, are recorded in proprietary funds. The Township's only proprietary funds are enterprise funds.

These funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the Township's enterprise funds are sewer fees. Operating expenses for the Township's enterprise funds include sewer disposal, supplies and administrative costs, and depreciation. All revenues or expenses not meeting this definition are reported as nonoperating revenues and expenses.

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the General Fund. All annual appropriations lapse at fiscal year end.

Cash and Cash Equivalents and Restricted Cash

The Township's cash and cash equivalents are cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Restricted cash represents tapping fees paid for future connection to the sewer system.

Investments

Investments are recorded at fair value.

In establishing the fair value of investments, the Township uses the following hierarchy. The lowest level of valuation available is used for all investments.

Level 1 – Valuations based on quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 – Valuations based on quoted prices of similar products in active markets or identical products in markets that are not active or for which all significant inputs are observable, directly or indirectly.

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the entity-wide financial statements as "internal balances."

Deferred Inflows and Deferred Outflows of Resources

In addition to assets and liabilities, the statement of net position and fund statements report separate sections for deferred inflows and deferred outflows of resources. These separate financial statement elements represent acquisition or use of net position/fund balance that

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

applies to a future period(s) and so will not be recognized as an inflow or outflow of resources (revenue or expense/expenditure) until that time. Certain changes made to the net pension liability, including differences between actual and expected experience of pension activities, changes in assumptions, and differences between actual and projected investment returns are required to be amortized over a period of years; the unamortized portions of these changes are reflected as deferred outflows or inflows of resources on the statement of net position, as applicable.

The governmental funds balance sheet reports delinquent taxes not collected within 60 days of year end as deferred inflows of resources since they are not considered available to liquidate liabilities of the current period in accordance with modified accrual reporting.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities columns in the entity-wide financial statements as well as in the proprietary fund financial statements. Capital assets, other than infrastructure, are defined by the Township as assets with an initial, individual cost of more than \$5,000 (\$10,000 for infrastructure assets) and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The Township reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the entity-wide financial statements regardless of their amount.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed, inclusive of ancillary costs.

Property, plant, and equipment of the Township are depreciated using the straight-line method over the following estimated useful lives:

Machinery and equipment	5 - 20 years
Vehicles	5 - 18 years
Land improvements	10 - 30 years
Buildings and improvements	7 - 40 years
Infrastructure	50 years

The half-year convention is used to record depreciation. Under this convention, half of the normal depreciation is recorded in the first and last year of an asset's estimated useful life.

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Long-term Obligations

In the entity-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Debt issuance costs, except any portion related to prepaid insurance costs, are recognized as an expense in the period incurred.

Fund Balances

Fund balances of the governmental funds are classified, if applicable, as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributions, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by formal action of the Board of Township Supervisors. The Board is the highest level of decision-making authority for the Township. Commitments may be established, modified, or rescinded only through resolutions approved by the Board.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The Board has designated the Township Manager and Treasurer the authority to assign amounts for specific purposes.

Unassigned – all other spendable amounts.

When both restricted and unrestricted resources are available for use, it is the Township's policy to use restricted resources first and then unrestricted resources as they are needed. Administrative expenses are paid with the use of unrestricted resources. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Township considers amounts to have been spent first out of committed funds, then assigned funds and, finally, unassigned funds, as needed, unless the Board has provided otherwise in its actions. The general fund is the only fund which reports positive unassigned fund balance.

Comparative Data

Comparative totals for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the Township's financial position and operations. Certain amounts presented in the prior year have been reclassified in order to

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

be consistent with the current year's presentation. However, presentation of prior year totals by fund and activity type have not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read. Summarized comparative information should be read in conjunction with the Township's financial statements for the year ended December 31, 2016, from which the summarized information was derived.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 DEPOSITS AND INVESTMENTS

Deposits

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned. The Township is required by statute to deposit funds in depositories that are either banks, banking institutions, or trust companies located in the Commonwealth of Pennsylvania. To the extent that such deposits exceed federal insurance, the depositories must pledge as collateral obligations of the United States of America, the Commonwealth of Pennsylvania, or any political subdivision of the Commonwealth. Under Act 72 of 1971, as amended, the depositories may meet this collateralization requirement by pooling appropriate securities to cover all public funds on deposit excluding the pension funds. At December 31, 2017, the carrying amount of the Township's deposits was \$7,395,564, and the bank balance was \$7,565,517. Of the bank balance, \$1,000,000 was covered by federal depository insurance, and \$5,450,343 was collateralized by pooled securities in accordance with Act 72. The deposits collateralized in accordance with Act 72 were exposed to custodial credit risk because they were uninsured and the collateral held by the depository's agent was not in the Township's name. The remaining balance of \$1,115,174 was held in the Pennsylvania School Township Liquid Asset Fund ("PSDLAF").

Although not registered with the Securities Exchange Commission and not subject to regulatory oversight, PSDLAF acts like money market mutual funds in that their objective is to maintain a stable net asset value of \$1 per share, are rated by a nationally recognized statistical rating organization, and are subject to an independent annual audit. Cash and cash equivalents held by the pension funds are disclosed in the plans' separate audited financial statements as discussed in Notes 10 and 11, and are excluded from the balances above.

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 2 DEPOSITS AND INVESTMENTS (cont'd)

Investments

Statutes authorize the Township to invest in obligations of the U.S. Treasury; agencies and instrumentalities; deposits in savings accounts or time deposits; or share accounts of institutions insured by the Federal Deposit Insurance Corporation ("FDIC"), the Federal Savings and Loan Insurance Corporation ("FSLIC"), or the National Credit Union Share Insurance Fund ("NCUSIF"). The Township also is authorized to invest in obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America or the Commonwealth of Pennsylvania or any of its agencies or instrumentalities.

The Township categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Township has the following recurring fair value measurements as of December 31, 2017:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Level 2</u>	<u>Matures in Less Than One Year</u>
Certificates of deposit	<u>\$ 261,572</u>	<u>\$ 261,572</u>	<u>\$ 261,572</u>
TOTAL	<u>\$ 261,572</u>	<u>\$ 261,572</u>	<u>\$ 261,572</u>

The Township's Level 2 investments in certificates of deposit are valued based on the value at which the investment could be redeemed as of the report date.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. As of December 31, 2017, none of Township's investments were subject to custodial credit risk.

Interest Rate Risk

The Township has an investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At December 31, 2017, all of the Township's investments had maturity dates of less than one year.

Credit Risk

The Township has no investment policy that would limit its investment choices to those with certain credit ratings.

Pension Plans

Investments held by the pension funds are disclosed in the plans' separate audited financial statements, as described in Notes 10 and 11, and are excluded from the balances above.

NOTE 3 INTERFUND ACTIVITY

The composition of interfund balances as of December 31, 2017 is as follows:

<u>Receivable To:</u>	<u>Payable From:</u>	<u>Amount</u>
General Fund	Capital Projects Fund	\$ 17,395
General Fund	Sewer Authority	\$ 42,541
Liquid Fuels Fund	Capital Projects Fund	\$ 573
Solid Waste Fund	General Fund	\$ 34,462
Solid Waste Fund	Sewer Authority	\$ 9,300

Interfund balances represent temporary loans which will be repaid shortly after year end.

Interfund transfers:

<u>Transfers out:</u>		<u>Transfers in:</u>	
General Fund	\$ 950,000	Capital Projects Fund	\$ 950,000
Solid Waste Fund	350,000	Capital Projects Fund	350,000
Sewer Fund	<u>385,000</u>	Sewer Authority	<u>385,000</u>
Total	<u>\$ 1,685,000</u>	Total	<u>\$ 1,685,000</u>

General Fund and Solid Waste Fund transfers to the Capital Projects Fund were made to fund debt service payments and to set aside funds for future capital projects. Sewer Fund transfers to the Sewer Authority were made to pay for a portion of the Authority's ongoing infrastructure improvement project.

NOTE 9 DEFINED BENEFIT PENSION PLANS

The Township participates in two defined benefit pension plans: the Upper Uwchlan Township Police Pension Plan and the Upper Uwchlan Township Non-Uniformed Pension Plan. The Police Pension Plan, a single-employer defined benefit plan, covers all full-time uniformed police officers. The Non-Uniformed Pension Plan, a single-employer defined benefit plan, covers all full-time permanent employees, other than police officers. The Township contributes to both plans.

The Township administers the assets of the two single-employer defined benefit plans and, accordingly, is required to prepare pension trust fund financial statements, using the accrual basis of accounting.

NOTE 10 POLICE PENSION PLAN

Plan description and provisions:

The Police Pension Fund is a single-employer defined benefit pension plan. The plan is governed by the Township Board of Supervisors, which may amend plan provisions and is responsible for the management of plan assets. The Board of Supervisors has delegated the authority to manage certain plan assets to INR Advisory Services LLC.

Plan Membership

Actuarial Valuation Report Form 205, filed with the Public Employee Retirement Commission and dated as of January 1, 2017, the most recent actuarial valuation, disclosed that pension plan membership consisted of the following:

Active employees	11
Vested terminated employees receiving benefits	<u>2</u>
Total	<u>13</u>

Eligibility Requirements and Benefit Provisions

Actuarial Valuation Report Form 205, filed with the Public Employee Retirement Study Commission and dated as of January 1, 2017, disclosed that the pension plan benefit provisions are as follows:

Members are eligible for normal retirement at age 55 with 25 years of continuous service and are entitled to a monthly pension equal to 50 percent of the member's average applicable compensation. A member becomes 100 percent vested in the benefit accrued after 12 or more years of continued service. Payments continue after the member's death to the surviving spouse, or eligible child, equal to 50 percent of the normal retirement benefit payable to the member at the time of death.

Members are eligible for early retirement after 20 years of service. The monthly early retirement pension benefit is equal to the actuarial equivalent of the benefit accrued to the early retirement date.

If a member continues working after the normal retirement date, the pension benefit does not start until the employee actually retires. The monthly late retirement pension benefit is equal to the actuarial equivalent of the benefit accrued to the late retirement date.

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 10 POLICE PENSION PLAN (cont'd)

If a member is eligible for retirement at the time of death, a monthly death benefit is payable to his surviving spouse, or eligible child, equal to 50 percent of the monthly pension benefit the member would have been receiving had he been retired at the time of death.

An active member is eligible for a monthly disability benefit if the member is disabled in the line of duty. The disability pension is equal to two percent of the member's average applicable compensation, multiplied by the total number of years of service.

Any member who has been a regularly appointed employee for a period of at least six months and who thereafter enters into active military service of the United States of America shall receive credit for all such active military service, if he or she returns to employment within six months after his or her separation from active military service.

If a member enters into active military duty prior to becoming an active employee of the Township, they shall receive credit for each year of active military service or a fraction thereof for a period not to exceed five years.

Members' contributions are to be three percent of monthly regular salary, overtime, extra duty, and longevity pay.

Method Used to Value Investments

Investments are reported at fair value.

Administrative Costs

Administrative costs, including the investment manager, custodial trustee, and actuarial services, are charged to the plan.

Contributions

Act 205 requires that annual contributions be based upon the minimum municipal obligation ("MMO"). The MMO is based upon the plan's biennial actuarial valuation. In 2017, employees contributed five percent of eligible compensation into the plan. The state provides an allocation of funds which must be used for pension funding. Any financial requirement established by the MMO which exceeds the state contribution must be funded by the employer in accordance with Act 205.

Deposits

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned. At December 31, 2017, the carrying amount of the Police Pension Plan's

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 10 POLICE PENSION PLAN (cont'd)

deposits was \$150,046, which is equal to the deposits in a depository account held by the trustee of the plan in the Township's name. None of this balance was subject to custodial credit risk.

Investments

The plan's investment policy in regard to the allocation of invested assets is established and may be amended by the Township Board of Supervisors and Pension Board. The objective of the investment strategy is to reduce risk while maximizing returns through the prudent diversification of the portfolio in order to maintain a fully funded status and meet the benefit and expense obligations when due. The plan's formal Investment Policy Statement, which is revised periodically, provides more comprehensive details on investment strategy and authorized investments.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target allocation percentage and by adding expected inflation. Best arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2017 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Rate of Return</u>
Equities (including equity ETFs)	75%	5.78%
Fixed income (including fixed income ETFs)	22%	1.35%
Cash	3%	<u>-0.31%</u>
Total Net Blended Return		4.22%*

* - Excludes 2.25 percent inflation assumption.

The investment objective of the plan is to maintain a balanced portfolio comprised of exchange-traded funds that invest in a variety of securities.

For the year ended December 31, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 17.36 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The net pension liability was measured as of December 31, 2017, and the total pension liability was determined by rolling forward the liabilities from an actuarial valuation as of January 1, 2017.

Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that municipal contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the plan, calculated using the discount rate of 7.5 percent, as well as what the plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that municipal contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 11 NON-UNIFORMED PENSION PLAN (cont'd)

Actuarial Assumptions

An actuarial valuation of the total pension liability is performed biennially. The total pension liabilities as of December 31, 2017 were determined as part of an actuarial valuation at January 1, 2017. Update procedures were used to roll forward January 1, 2017 liabilities to the plan's fiscal plan year ended December 31, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age
Amortization Method	Level Dollar
Remaining Amortization Period	13 years
Asset Valuation Method	Market Value
Assumptions:	
Inflation	2.25 percent
Salary increases	4.50 percent
Investment rate of return	7.50 percent, net of pension plan investment expense, including inflation
Retirement Age	The first day of the month coincident with or next following the date on which the member attains full retirement age for receiving full social security benefits.

NOTE 12 CONTINGENT LIABILITIES

The Township participates in state and county-assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The Township is potentially liable for any expenditure which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

NOTE 13 RISK MANAGEMENT

The Township has purchased commercial insurance policies for various risks of loss related to torts; theft, damage, or destruction of assets; errors or omissions; injuries to employees; or acts of God. Payments of premiums for these policies are recorded as expenses of the Township. Insurance settlements have not exceeded insurance coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

UPPER UWCHLAN TOWNSHIP
NOTES TO FINANCIAL STATEMENTS

NOTE 14 ON-BEHALF PAYMENTS FOR FRINGE BENEFITS

The Township recognizes as revenue and expenses contributions made by the Commonwealth of Pennsylvania to the Township's Police and Non-Uniformed Pension Plans on behalf of the Township's employees. In fiscal year 2017, the State made contributions of \$50,356. These contributions are recorded in the General Fund as revenue and expenditures.

NOTE 15 EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The following funds incurred expenditures in excess of appropriations in the following amounts for the year ended December 31, 2017:

General Fund:

Culture and Parks	\$ 19,454
-------------------	------------------

The excess expenditures in the Culture and Parks were covered by revenues exceeding budgeted amounts and reductions in expenditures in other areas.

NOTE 16 CONSTRUCTION COMMITMENTS

As of December 31, 2017, the Township had several ongoing construction and other projects yet to be completed. The commitments and amounts completed are as follows:

	Project Amount	Completed as of 12/31/2017	Commitments
Governmental Activities:			
Park road trail	\$ 258,900	\$ 213,590	\$ 45,310

NOTE 17 CAPITAL LEASE - LESSEE

The Township has entered into a lease agreement as a lessee for financing the acquisition of plow truck used within the Township. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the lower of asset value or present value of future minimum lease payments as of the inception date.

The assets acquired through the capital lease are as follows:

ASSET	
Equipment – Plow Truck	\$ 262,623
Less: Accumulated depreciation	<u>(13,131)</u>
Equipment, net	<u>\$ 249,492</u>

The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2017 were as follows:

<u>Year Ending December 31,</u>	
2018	\$ 55,458
2019	55,458
2020	55,458

Note: Overlapping governments are those that coincide, at least in part, with geographic boundaries of the Township. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property tax owners of Upper Uwchlan Township. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government. This schedule excludes debt related to business-type activities.

OTHER REPORT

INDEPENDENT AUDITOR'S
REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

June 18, 2018

Board of Supervisors
Upper Uwchlan Township
Chester Springs, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Upper Uwchlan Township, Chester Springs, Pennsylvania ("the Township"), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements, and have issued our report thereon dated June 18, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Township's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Supervisors
Upper Uwchlan Township
Chester Springs, Pennsylvania

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
