

Upper Uwchlan Township
Environmental Advisory Council Meeting
November 1st, 2022
Minutes

Chairperson Neil Phillips Called the meeting to Order at 6:00 PM.

All EAC members were in attendance as was Paul Boettinger and Russell Benner from T&M Associates and John D'Amico a contractor for T&M and Tony Scheivert, Township Manager.

Board approved minutes from the September 6th, 2022 meeting.

Presentation from T&M – Paul and Russell from T&M updated the EAC on the work they have done for the Township on a Stormwater Fee and presented a plan to move forward with implementing such a fee. The timeline for educational materials to residents and putting a fee system into place would be approximately 12 to 16 months. Approval to move forward now would make implementing a fee possible for 2024. EAC will discuss further but was not comfortable moving forward now with ongoing court proceedings over West Chester Boroughs storm water fee.

Old Business – Discussed the Trunk or Treat event held on October 29th. Event was a huge success and the EAC gave out all of the bulbs they had on hand.

E-Waste and Shredding – Was held on October 22nd. Great participation by the Community. We should have the number on the amount collected for the next meeting.

New Business: Green Drop Collection will be held on November 12th at the Upland Farm Barn parking lot. Tony will send out sign up for volunteers later this week.

Tree Lighting – November 26th from 3:30 to 5:30 PM with fireworks at 6:15 PM. EAC will not be participating in this event in 2022.

Plastic Ban Ordinance examples from West Chester Borough and West Goshen Township were discussed. Tony will be reaching out to Kristin Camp to get her input as she was involved in both municipalities.

Sustainable Community Assessment was discussed briefly. EAC members were asked to look over and provide comments to Neil and Tony.

Open Session – There was nothing for open session.

Meeting adjourned at 7:02 PM.

Respectfully submitted

Tony Scheivert, Township Manager
