ADMINISTRATION

Date: April 11, 2019

FOR IMMEDIATE RELEASE

ROUTE AND INSTALLATION MODIFICATION REQUESTED BY SUNOCO PIPELINE

CHESTER SPRINGS, PA – Upper Uwchlan Township has been advised that Sunoco is seeking a major modification in both route and installation method specific to both the 16” and the 20” diameter pipelines currently under construction in Upper Uwchlan Township. The modification request was submitted to the Pennsylvania Department of Environmental Protection (PA DEP). Upper Uwchlan Township has no enforcement or regulatory authority over the location of installation of underground transmission pipelines.

The proposed change in installation method is from horizontal directional drill to open cut installation across stream S-Q83 (Unnamed tributary to March Creek) and a conventional bore under Styer Road. The originally proposed HDD was running immediately adjacent to the Pennsylvania Turnpike in the area of Meadowcreek Lane. The newly proposed location of installation is under Meadowcreek Lane; installation via open cut excavation.

Please see the attached notice for additional information and a map of the site.

Any questions should be directed to the PA DEP at (484) 250-5900.

Upper Uwchlan Township is a Township of the Second class, population 11,500, located in central Chester County, PA. Visit us on the web at www.upperuwchlan-pa.gov. Like us on Facebook and Twitter @upperuwchlan.
